Artwork Self-Critique Worksheet

It's important to reflect on your work. Use this worksheet to formalize the process. You can print it out and write down your answers, or simply run through the questions in your head after each painting.

Q: Am I happy with the painting?

(This is a high-level question that summarizes your general thoughts about the painting.)

Q: What went well?

(Did you overcome a troublesome problem? Do the colors work? Did you try a new process or style? Did you convey the subject in a creative way?)

Q: What could be improved?

(Don't list every mistake. Think of one or two big issues or areas of improvement.)
